SCHOOL OF MEDICINE

Declaration of Geneva

At the time of being admitted as a member of the Medical Profession,
I solemnly pledge myself to consecrate my life to the service of humanity;
I will give to my teachers the respect and gratitude which is their due;
I will practice my profession with conscience and dignity;
The health of my patient will be my first consideration;
I will respect the secrets which are confided in me;
I will maintain by all the means in my power, the honor and noble traditions of the medical profession;
My colleagues will be my brothers;
I will not permit consideration of religion, nationality, race, party politics or social standing to intervene between my duty and my patient;
I will maintain the utmost respect for human life; even under threat, I will not use my medical knowledge contrary to the laws of humanity.

The department of Medical Technology has been working on development of a university based School of Medical Technology. Students will be taken into the program after two years of undergraduate requirements have been fulfilled. The student will then spend the next two years as an M.T. student at the Health Sciences Center. The 1984-85 school year will see the first group of students to enter the upper two years in this program.

Dedication

R²M

40th Birthday Moratorium

The **Plexus** staff of 1984 would like to dedicate Volume Two of the **Plexus** to Roger Markwald Ph.D., Professor of Anatomy. To students in their Basic Science years he has been an accomplished, informative professor; and when the going got tough, he gave encouragement with a smile.
Dr. Markwald came to TTUSM July 1, 1975. He will be leaving July 31, 1984 to go to the Medical College of Wisconsin, where he will be Chairman of Anatomy. We will miss you Mark Mark.
